

Technology at Panmure Primary School

Students at Panmure Primary school learn how the IT world works through the magic of Apple Devices.

All students have access to their own school provided Mac Air and Ipad. These computers all have lightning-fast internet and a full suite of learning software installed on them. The school integrates IT into all the subjects and learning that your child will experience at Panmure Primary School.

Their creative minds can be engaged and there's never a dull moment with IT at Panmure. With the closely monitored, safe and secure internet used under supervision of the teachers your child will have the joy of learning in a connected world.
