

## Sunsmart Policy

### PURPOSE

The purpose of this policy is to encourage behaviours at Panmure Primary School to minimise the risk of skin and eye damage and skin cancer.

This policy provides guidelines to:

- support staff and students to use a combination of sun protection measures when UV index levels are 3 or above (generally mid-August – end of April)
- ensure that there are outdoor environments that provide adequate shade for students and staff
- ensure students are encouraged and supported to develop independent sun protection skills to help them to be responsible for their own protection
- support our school's strategies to meet its duty of care and occupational health and safety obligations to minimise harmful UV exposure and associated harm for students and staff.

### SCOPE

This policy applies to all school activities, including camps and excursions. It is applicable to all students and staff.

### POLICY

Excessive exposure to the sun's ultraviolet (UV) radiation can cause health problems including sunburn, damage to skin and eyes, and an increased risk of skin cancer.

#### **UV radiation:**

- cannot be seen or felt
- can be reflected off surfaces such as buildings, asphalt, concrete, water, sand and snow
- can pass through light clouds
- varies in intensity across the year (highest in Victoria from mid-August – end of April)
- peaks during school hours.

Sun safety is a shared responsibility and staff, parents and students are encouraged to implement a combination of sun protection measures whenever UV levels reach 3 and above (typically from mid-August to the end of April in Victoria). Information about the daily local sun protection times is available via the SunSmart widget on the school's website, the free SunSmart app, or at [sunsmart.com.au](http://sunsmart.com.au) or [bom.gov.au](http://bom.gov.au).

Panmure Primary School has the following measures in place to help reduce the risk of excessive UV sun exposure for staff and students.

#### **Shade**

Panmure Primary School will provide sufficient options for shelter and trees to provide shade on school grounds, particularly in places such as:

- outdoor lesson areas
- popular play areas
- assembly areas
- sporting grounds

When building works or grounds maintenance is conducted at Panmure Primary School that may impact on the level of shading available to staff and students, a review of the shaded areas available will be conducted and further shading installed as appropriate.

#### **Sun protective uniform/clothing**

Panmure Primary School's uniform and dress code includes sun-protective clothing, including:

- loose, cool, closely woven fabric
- shirts with a collar and/or high necklines
- tops with elbow length or long sleeves
- longer style shorts
- rash vests or t-shirts for outdoor swimming activities.

From mid-August (exact date to be set by the school annually) to 30 April, all students **must** wear a sun protective hat that shades the face, neck and ears for example broad-brimmed, legionnaire or bucket hat, for all outdoor activities. Hats may also be worn for all outdoor activities outside of the August to April time period, by parent or student choice.

Students who are not wearing appropriate protective clothing or a hat may be asked to play in the shade or in a suitable area protected from the sun.

### Sunscreen

Panmure Primary School encourages all staff and students to apply SPF30 (or higher) broad-spectrum, water-resistant sunscreen daily whenever UV levels reach 3 and above. Sunscreen should be applied at least 20 minutes before going outdoors, and reapplied every two hours.

Panmure Primary School has strategies in place to remind students to apply sunscreen before going outdoors.

Staff and students who may suffer from allergic reactions from certain types of sunscreen are encouraged bring labelled sunscreen, appropriate for their specific needs and individual use.

Staff and families should role model SunSmart behaviour and are encouraged to apply SPF 30 (or higher) broad-spectrum, water-resistant sunscreen when outside.

### Curriculum

Students at our school are encouraged to make healthy choices and are supported to understand the benefits and risks of sun exposure. Panmure Primary School will address sun and UV safety education through the Victorian Curriculum.

Staff are encouraged to access resources, tools, and professional learning to enhance their knowledge and capacity to promote sun smart behaviour across the school community.

## COMMUNICATION

This policy will be communicated to our school community in the following ways:

- Available publicly on our school's website (or insert other online parent/carer/student communication method)
- Included in staff induction processes
- Included in transition and enrolment packs
- Discussed at parent information sessions
- Reminders in our school newsletter
- Discussed in student forums
- Hard copy available from school administration upon request
